SUMMARY

B.Tech Information Technology graduate with strong analytical and problem-solving abilities, skilled in Python, SQL, and front-end development. Proven experience building end-to-end applications, from data processing to deployment, through internships and projects. A quick learner passionate about developing efficient, scalable solutions aligned with business needs.

EDUCATION

B.Tech in Information Technology, Sri Sairam Engineering College, Chennai 2022 – 2026
CGPA: 7.21

HSC, SRM Nightingale School, Chennai 2021 – 2022
Percentage: 74.33%

SKILLS

Languages: Python, SQL, SAP-ABAP, Front-end Technologies

Python: Object-Oriented Programming (OOP), Pandas, NumPy, Matplotlib, Seaborn, EDA

Tools: VS Code, SAP GUI, MySQL, Power BI, Figma, Unreal Engine, Claude, Anti-gravity AI

Graphic Design: UI/UX Design, 3D Modelling, Visual Design

AI & Development: GenAI, Vibe Coding, Prompt Engineering

Soft Skills: Organizing Skills, Problem Solving, Teamwork, Quick Learner, Creative Thinking

INTERNSHIP EXPERIENCE

🌐 **Data Analytics Inter — Oasis Infobyte Pvt Ltd** June 2026

- Performed data cleaning, preprocessing, and exploratory data analysis (EDA) using Python libraries.
- Conducted EDA on retail sales data to identify customer and sales trends.
- Built a customer segmentation model and a house price prediction model.

🌐 **ABAP Developer Intern — Ford Motor Company** Aug 2025

- Worked on SAP ABAP within the Data Conversion team as part of the iERP project.
- Contributed to data migration and integration tasks within SAP.
- Handled flat-file operations for data migration, including reading, validating, and processing files.

🌐 **Web Developer Intern — Jorim Technology Solutions Pvt Ltd** June 2024

- Designed and implemented responsive web pages using HTML, CSS, and Figma for a consistent user experience across devices.
- Assisted in deploying website updates and front-end changes to testing and production environments.
- Collaborated on project requirements and implemented functionality based on client needs.

🌐 **Graphic Designer Intern — Mackinlay Enterprise** May 2024

- Designed creative, visually engaging digital graphics for organizational requirements.
- Developed marketing and branding materials while maintaining design consistency.
- Incorporated feedback to deliver high-quality outputs within deadlines.

PROJECTS

🕒 Hari Fitness — Personal Training & Body Transformation Platform (GenAI-assisted)

July 2026

- Designed and developed a premium fitness coaching web platform with GenAI tools, nutrition tracking, and client progress management.
- Used AI-assisted development tools to accelerate prototyping, UI refinement, and feature implementation.
- Deployed the application on Vercel following modern web deployment practices.

🕒 Data Analytics Project — Time-Series Analysis on Financial Market Data

June 2026

- Built an object-oriented Python application to perform time-series analysis on OHLCV market data.
- Created time-series visualizations in Matplotlib comparing closing prices with moving averages to improve trend interpretation.
- Applied Python best practices for modular, readable, and maintainable code using OOP principles.

🕒 NEET Coaching Academy — Website & Design

June 2024

- Designed and developed a responsive website for a NEET coaching academy.
- Created intuitive user interfaces focused on accessibility and user experience.
- Applied modern web development practices for performance and maintainability.

Material Master Data Conversion — Ford Motor Company (iERP Project)

Aug 2025

- Worked as an ABAP Developer in the Data Conversion team for Ford's SAP iERP implementation.
- Gained hands-on experience in SAP ERP, SAP ABAP development, and enterprise data migration.
- Developed validation, load, and post-load programs in ABAP to ensure accurate data migration.

CERTIFICATIONS

- Spoken Tutorial — Python 3.4.3 Training
- NPTEL — Cloud Computing, IoT
- MathWorks — Deep Learning Onramp

ACHIEVEMENTS

- Selected among the top 30 teams from over 4,000 applicants at the 5G and 6G Hackathon 2024, Bangalore, for innovative contributions in 5G/6G technology advancements.
- Published a paper titled “Design and Implementation of MR Models in Healthcare” at ICCCT 2025.
